DETAILED ACTION

1. This Office Action is a response to communications dated 09/12/05. Claims 2-5 are pending in the application.

Drawings

2. The drawings were received on 09/12/05. These drawings are approved.

Allowable Subject Matter

3. Claims 2-5 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed congestion control method, comprising, among other limitations, a novel and unobvious limitation of:

"the input data measurement section periodically estimates a tendency of an increase in the smooth queue length, in the future, from a quantity ... being estimated has passed", structurally and functionally interconnected with other limitations in a manner as recited in claims 2-3.

"the packet discarding judgment section judges whether an arriving packet is made to pass or is discarded according to the packet discarding probability in which the smooth queue length is used as a parameter", structurally and functionally interconnected with other limitations in a manner as recited in claim 4.

"the smooth queue length calculating section includes a memory device or pointing device for calculating and displaying a quantity of accumulated data composed of a difference between the quantity of input data and the quantity of output data", structurally and functionally interconnected with other limitations in a manner as recited in claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
